

Supporting children with medical needs.

Lemington Riverside Primary School

Approved by:	The Governing Body	Date: January 2021
Last reviewed on:	January 2021	
Next review due by:	January 2022	

Introduction:

Lemington Riverside Primary school is an inclusive community that welcomes and supports learners with medical needs. This school works to provide all pupils with all medical conditions the same opportunities as others at school.

This policy is written to ensure learners who have medical needs, including medical technology needs are well supported and included by **Lemington Riverside Primary School** with key partners including families and Health professionals. The policy was ratified by the school governing body in **January 2021** and meets the requirements set out in:

- 'Pupils with Medical Needs' OFSTED, Sept 2012
- 'Managing Medical Needs in Schools and Early Years Settings' Newcastle City Council, Feb 2013
- 'Managing Medicines in Schools and Early Years Settings' DfE / Department of Health, 2005
- 'Supporting pupils at school with medical conditions statutory guidance for governing bodies of maintained schools and proprietors of academies in England' April 2014

What follows is a summary of our policy and practice. The full policy is available on request from the Head teacher

Policy Summary:

This school will welcome, support and include learners with long-term medical conditions, short-term medical needs and medical technical support.

This school will work with families, Health partners and others to devise, implement and review health care plans for individual learners.

This school will safely store and administer medication where appropriate, in line with legal requirements.

This school ensures all staff understand their duty of care to children and young people with medical needs.

All staff feel confident in knowing what to do in an emergency.

All staff understand the common medical conditions e.g. asthma, epilepsy, diabetes, allergies that affect children at this school. Staff receive training on the impact medical conditions can have on pupils.
