

## Lemington Riverside Mathematics Curriculum

## Mathematics Opportunities KS1

## Mathematics Opportunities KS2

- Count and calculate in a range of practical contexts.
-Use and apply mathematics in everyday activities and across the curriculum.
- Repeat key concepts in many different practical ways to secure retention.
- Explore numbers and place value up to at least 100.
- Add and subtract using mental and formal written methods in practical contexts.
- Count and calculate in increasingly complex contexts, including those that cannot be experienced first hand.
- Rigorously apply mathematical knowledge across the curriculum, in particular in science, technology and computing.
- Deepen conceptual understanding of mathematics by frequent repetition and extension of key concepts in a range of engaging and purposeful contexts.
- Explore numbers and place value so as to read and understand the value of all numbers.
- Add and subtract using efficient mental and formal written methods.
- Multiply and divide using mental and formal written methods in practical contexts.
- Explore the properties of shapes.
- Use language to describe position, direction and movement.
- Use and apply in practical contexts a range of measures, including time.
- Handle data in practical contexts.
- Multiply and divide using efficient mental and formal written methods.
- Use the properties of shapes and angles in increasingly complex and practical contexts, including in construction and engineering contexts.
- Describe position, direction and movement in increasingly precise ways.
- Use and apply measures to increasingly complex contexts.
- Gather, organise and interrogate data.
- Understand the practical value of using algebra.

| Mathematics Curriculum Objectives | Area of Focus | Phase Aims -Milestone 1 (Yrs 1 \& 2; End KS1) | Phase Aims -Milestone 2 (Yrs 3 \& 4: End LKS2) | Phase Aims -Milestone 3 (Yrs 5 \& 6:End UKS2) |
| :---: | :---: | :---: | :---: | :---: |
| To know and use numbers | Counting | - Count to and across 100, forwards and backwards, beginning with 0 or 1 , or from any given number. <br> - Count, read and write numbers to 100 in numerals; count in multiples of twos, fives and tens. <br> - Given a number, identify one more and one less. <br> - Count in steps of $2,3,5$ and 10 from 0 or 1 and in tens from any number, forward and backward. | - Count in multiples of 2 to $9,25,50,100$ and 1000. <br> - Find 1000 more or less than a given number. <br> - Count backwards through zero to include negative numbers. | - Read numbers up to 10 000000. <br> - Use negative numbers in context and calculate intervals across zero. |
|  | Representing | - Identify, represent and estimate numbers using different representations, including the number line. <br> - Read and write numbers initially from 1 to 20 and | - Identify, represent and estimate numbers using different representations. <br> - Read Roman numerals to 100 (I to C) and know that over time, the | - Write numbers up to 10 000000 <br> - Read Roman numerals to $1000(\mathrm{M})$ and recognise years written in Roman numerals. |

|  | then to at least 100 in numerals and in words. | numeral system changed to include the concept of zero and place value. |  |
| :---: | :---: | :---: | :---: |
| Comparing | - Use the language of: equal to, more than, less than (fewer), most and least. <br> - Compare and order numbers from 0 up to 100; use <, > and = signs. | - Order and compare numbers beyond 1000. | - Order and compare numbers up to 10000 000. |
| Place value | - Recognise the place value of each digit in a two-digit number (tens, ones). | - Recognise the place value of each digit in a four-digit number. (thousands, hundreds, tens, and ones) <br> - Round any number to the nearest 10,100 or 1000. | - Round any whole number to a required degree of accuracy. <br> - Determine the value of each digit in any number. |
| Solving problems | - Use place value and number facts to solve problems. | - Solve number and practical problems with increasingly large positive numbers. | - Solve number and practical problems. |

| To add and subtract | Complexity | - Solve one-step problems with addition and subtraction: <br> - Using concrete objects and pictorial representations including those involving numbers, quantities and measures. <br> - Using the addition (+), subtraction (-) and equals (=) signs. <br> - Applying their increasing knowledge of mental and written methods. | - Solve two-step addition and subtraction problems in contexts, deciding which operations and methods to use and why. | - Solve multi-step addition and subtraction problems in contexts, deciding which operations and methods to use and why. |
| :---: | :---: | :---: | :---: | :---: |
|  | Methods | - Add and subtract numbers using concrete objects, pictorial representations, and mentally, including: <br> - One-digit and two-digit numbers to 20 , including zero. <br> - A two-digit number and ones. | - Add and subtract numbers with up to 4 digits using the formal written methods of columnar addition and subtraction where appropriate. <br> - Add and subtract numbers mentally, including: | - Add and subtract whole numbers with more than 4 digits, including using formal written methods. (columnar addition and subtraction) <br> - Add and subtract numbers mentally with increasingly large numbers. |

|  |  | - A two-digit number and tens. <br> - Two two-digit numbers. <br> - Adding three one-digit numbers. <br> - Show that addition of two numbers can be done in any order (commutative) and subtraction of one number from another cannot. | - A three-digit number and ones. <br> - A three-digit number and tens. <br> - A three-digit number and hundreds. |  |
| :---: | :---: | :---: | :---: | :---: |
|  | Checking | - Recognise and use the inverse relationship between addition and subtraction and use this to check calculations and solve missing number problems. | - Estimate and use inverse operations to check answers to a calculation. | - Use rounding to check answers to calculations and determine, in the context of a problem, levels of accuracy. |
|  | Using number facts | - Represent and use number bonds and related subtraction facts within 20. <br> - Recall and use addition and subtraction facts to 20 fluently, and derive and | - Solve problems, including missing number problems, using number facts, place value and more complex addition and subtraction. | - Add and subtract negative integers. |

|  |  | use related facts up to 100. |  |  |
| :---: | :---: | :---: | :---: | :---: |
| To multiply and divide | Complexity | - Solve one-step problems involving multiplication and division by calculating the answer using concrete objects, pictorial representations and arrays with the support of the teacher. | - Solve problems involving multiplying and adding, including using the distributive law to multiply two digit numbers by one digit, integer scaling problems and harder correspondence problems (such as n objects are connected to m objects). | - Solve problems involving addition, subtraction, multiplication and division and a combination of these, including understanding the meaning of the equals sign. <br> - Solve problems involving multiplication and division, including scaling by simple fractions and problems involving simple rates. <br> - Use knowledge of the order of operations to carry out calculations involving the four operations. |
|  | Methods | - Calculate mathematical statements for multiplication and division within the multiplication tables and write them | - Multiply two-digit and three-digit numbers by a one-digit number using formal written layout. | - Multiply multi-digit numbers up to 4 digits by a two-digit whole number using the formal written method of long |

|  |  | using the multiplication (.), division ( $\div$ ) and equals (=) signs. <br> - Show that multiplication of two numbers can be done in any order (commutative) and division of one number by another cannot. <br> - Solve problems involving multiplication and division using mental methods. | - Use place value, known and derived facts to multiply and divide mentally, including: multiplying by 0 and 1 ; dividing by 1 ; multiplying together three numbers. <br> - Recognise and use factor pairs and commutativity in mental calculations. | multiplication. <br> - Divide numbers up to 4 digits by a two-digit whole number using the formal written method of long division, and interpret remainders as whole number remainders, fractions, or by rounding, as appropriate for the context. <br> - Divide numbers up to 4 digits by a two-digit number using the formal written method of short division where appropriate, interpreting remainders according to the context. <br> - Perform mental calculations, including with mixed operations and large numbers. |
| :---: | :---: | :---: | :---: | :---: |
|  | Checking | - Use known multiplication facts to check the accuracy of calculations. | - Recognise and use the inverse relationship between multiplication | - Estimate and use inverse operations and rounding to check |

|  |  |  | and division and use this to check calculations and solve missing number problems. | answers to a calculation. |
| :---: | :---: | :---: | :---: | :---: |
|  | Using multiplication and division facts | - Recall and use multiplication and division facts for the 2, 5 and 10 multiplication tables. <br> - Recognise odd and even numbers. <br> - Use multiplication and division facts to solve problems. | - Recall multiplication and division facts for multiplication tables up to $12 \times 12$. | - Identify common factors, common multiples and prime numbers. <br> - Establish whether a number up to 100 is prime and recall prime numbers up to 19 . <br> - Multiply and divide whole numbers and those involving decimals by 10,100 and 1000. <br> - Recognise and use square numbers and cube numbers, and the notation for squared (2) and cubed (3). <br> - Solve problems involving multiplication and division including using knowledge of factors and multiples, |

|  |  |  |  | squares and cubes. |
| :---: | :---: | :---: | :---: | :---: |
| Fractions (including decimals, percentages, ratio and proportion) | Recognising fractions | - Recognise, find and name a half as one of two equal parts of an object, shape or quantity. <br> - Recognise, find and name a quarter as one of four equal parts of an object, shape or quantity. <br> - Recognise, find, name and write fractions $1 / 2$, $1 / 4,2 / 4$ and $3 / 4$ of a length, shape, set of objects or quantity. | - Recognise, find and write fractions of a discrete set of objects: unit fractions and nonunit fractions with small denominators. <br> - Recognise and use fractions as numbers: unit fractions and nonunit fractions with small denominators. <br> - Round decimals with one decimal place to the nearest whole number. <br> - Compare numbers with the same number of decimal places up to two decimal places. <br> - Count up and down in tenths; recognise that tenths arise from dividing an object into 10 equal parts and in dividing onedigit numbers or | - Compare and order fractions whose denominators are all multiples of the same number. <br> - Compare and order fractions, including fractions $>1$. <br> - Recognise mixed numbers and improper fractions and convert from one form to the other and write mathematical statements $>1$ as a mixed number. <br> - Round decimals with two decimal places to the nearest whole number and to one decimal place. <br> - Read, write, order and compare numbers with up to three decimal places. |

|  |  |  | quantities by 10 . <br> - Count up and down in hundredths; recognise that hundredths arise when dividing an object by one hundred and dividing tenths by ten. <br> - Compare and order unit fractions and fractions with the same denominators. | - Identify the value of each digit in numbers given to three decimal places. <br> - Solve problems involving number up to three decimal places. <br> - Recognise the per cent symbol (\%) and understand that per cent relates to 'number of parts per hundred', and write percentages as a fraction with denominator 100, and as a decimal. |
| :---: | :---: | :---: | :---: | :---: |
|  | Equivalence | - Recognise the equivalence of $2 / 4$ and 1/2. | - Recognise and show, using diagrams, families of common equivalent fractions. <br> - Recognise and write decimal equivalents of any number of tenths or hundredths. <br> - Recognise and write decimal equivalents to $1 / 4,1 / 2,3 / 4$. | - Identify, name and write equivalent fractions of a given fraction, represented visually, including tenths and hundredths. <br> - Read and write decimal numbers as fractions. <br> - Recognise and use thousandths and relate them to tenths, |

|  |  | $\begin{array}{l}\text { hundredths and decimal } \\ \text { equivalents. } \\ \text { - Use common factors to } \\ \text { simplify fractions; use } \\ \text { common multiples to } \\ \text { express fractions in the } \\ \text { same denomination. }\end{array}$ |  |
| :---: | :---: | :--- | :--- |
|  |  |  |  |
|  |  |  | $\begin{array}{l}\text { - Associate a fraction } \\ \text { with division and } \\ \text { calculate decimal }\end{array}$ |
| fraction equivalents. |  |  |  |\(\left.\} \begin{array}{l}- Recall and use <br>

equivalences between <br>
simple fractions, <br>
decimals and <br>
percentages, including in <br>
different contexts.\end{array}\right]\)

|  |  |  | fractions to divide quantities (including nonunit fractions where the answer is a whole number). <br> - Add and subtract fractions with the same denominator. <br> - Find the effect of dividing a one- or twodigit number by 10 and 100 , identifying the value of the digits in the answer as ones, tenths and hundredths. <br> - Solve simple measure and money problems involving fractions and decimals to two decimal places. | numbers, using the concept of equivalent fractions. <br> - Multiply proper fractions and mixed numbers by whole numbers, supported by materials and diagrams. <br> - Multiply simple pairs of proper fractions, writing the answer in its simplest form. <br> - Solve problems which require knowing percentage and decimal equivalents of, $1 / 2,1 / 4$, $1 / 5,2 / 5,4 / 5$ and those fractions with a denominator of a multiple of 10 or 25 . <br> - Divide proper fractions by whole numbers. <br> - Multiply and divide numbers by 10, 100 and 1000 giving answers up |
| :---: | :---: | :---: | :---: | :---: |

| To understand the properties of shapes | - Recognise and name common 2D and 3D shapes. <br> - Identify and describe the properties of 2-D shapes, including the number of sides and line symmetry in a vertical line. <br> - Identify and describe the properties of 3-D shapes, including the number of edges, vertices and faces. <br> - Identify 2-D shapes on the surface of 3-D shapes. <br> - Compare and sort common 2-D and 3-D shapes and everyday objects. | - Draw 2-D shapes and make 3-D shapes using modelling materials; recognise 3-D shapes in different orientations and describe them. <br> - Recognise angles as a property of shape or a description of a turn. <br> - Identify right angles, recognise that two right angles make a half-turn, three make three quarters of a turn and four a complete turn; identify whether angles are greater than or less than a right angle. <br> - Identify horizontal and vertical lines and pairs of perpendicular and parallel lines. <br> - Compare and classify geometric shapes, including quadrilaterals and triangles, based on their properties and | - Identify 3-D shapes, including cubes and other cuboids, from 2-D representations. <br> - Know angles are measured in degrees: estimate and compare acute, obtuse and reflex angles. <br> - Draw given angles, and measure them in degrees ( ${ }^{\circ}$ ). <br> - Identify: <br> - Angles at a point and one whole turn (total $360^{\circ}$ ). <br> - Angles at a point on a straight line and a turn (total $180^{\circ}$ ). <br> - Other multiples of $90^{\circ}$. <br> - Use the properties of rectangles to deduce related facts and find missing lengths and |
| :---: | :---: | :---: | :---: |

|  | clockwise). | up/down. <br> - Plot specified points and draw sides to complete a given polygon. |  |
| :---: | :---: | :---: | :---: |
| To use measures | - Compare, describe and solve practical problems for: <br> -lengths and heights. <br> -mass/weight. <br> -capacity and volume. <br> $\bullet$ •time. <br> - Measure and begin to record: <br> -lengths and heights. <br> -mass/weight. <br> -capacity and volume. <br> -time. (hours, minutes, seconds). | - Measure, compare, add and subtract: lengths ( $\mathrm{m} / \mathrm{cm} / \mathrm{mm}$ ); mass ( $\mathrm{kg} / \mathrm{g}$ ); volume/capacity ( $1 / \mathrm{ml}$ ). <br> - Measure the perimeter of simple 2-D shapes. <br> - Add and subtract amounts of money to give change. ( $£$ and $p$ ) <br> - Tell and write the time from an analogue clock, including using Roman numerals from I to XII, and 12 -hour and 24 -hour clocks. <br> - Estimate and read time with increasing accuracy to the nearest minute; record and compare time in terms of seconds, | - Convert between different units of metric measure. <br> - Understand and use approximate equivalences between metric units and common imperial units such as inches, pounds and pints. <br> - Measure and calculate the perimeter of composite rectilinear shapes in centimetres and metres. <br> - Calculate and compare the area of rectangles (including squares), and including using standard units, square centimetres (cm2) and square metres |

minutes and hours; use appropriate vocabulary.

- Know the number of seconds in a minute and the number of days in each month, year and leap year.
- Compare durations of events.
- Convert between different units of measure. (for example, kilometre to metre; hour to minute)
- Measure and calculate the perimeter of a rectilinear figure (including squares) in centimetres and metres.
- Find the area of rectilinear shapes by counting squares.
- Estimate, compare and calculate different measures, including
(m2) and estimate the area of irregular shapes.
- Estimate volume and capacity.
- Solve problems involving converting between units of time.
- Use all four operations to solve problems involving measure (for example, length, mass, volume, money) using decimal notation, including scaling.
- Solve problems involving the calculation and conversion of units of measure, using decimal notation up to three decimal places where appropriate.
- Use, read, write and convert between standard units, converting measurements of length,

|  | - Compare and order lengths, mass, volume/capacity and record the results using $>$, < and $=$. <br> - Recognise and use symbols for pounds ( $£$ ) and pence (p); combine amounts to make a particular value. <br> - Find different combinations of coins that equal the same amounts of money. <br> - Solve simple problems in a practical context involving addition and subtraction of money of the same unit, including giving change. <br> - Compare and sequence intervals of time. <br> - Tell and write the time to five minutes, including quarter past/to the hour and draw the hands on a | money in pounds and pence. <br> - Read, write and convert time between analogue and digital 12- and 24hour clocks. <br> - Solve problems involving converting from hours to minutes; minutes to seconds; years to months; weeks to days. | mass, volume and time from a smaller unit of measure to a larger unit, and vice versa, using decimal notation to up to three decimal places. <br> - Convert between miles and kilometres. <br> - Recognise that shapes with the same areas can have different perimeters and vice versa. <br> - Recognise when it is possible to use formulae for area and volume of shapes. <br> - Calculate the area of parallelograms and triangles. <br> - Calculate, estimate and compare volume of cubes and cuboids using standard units, including cubic centimetres (cm3) and cubic metres (m3), and extending to other |
| :---: | :---: | :---: | :---: |

|  | clock face to show these times. <br> - Know the number of minutes in an hour and the number of hours in a day. |  | units. |
| :---: | :---: | :---: | :---: |
| To use statistics | - Interpret and construct simple pictograms, tally charts, block diagrams and simple tables. <br> - Ask and answer simple questions by counting the number of objects in each category and sorting the categories by quantity. <br> - Ask and answer questions about totalling and comparing categorical data. | - Interpret and present data using bar charts, pictograms and tables. <br> - Solve one-step and two-step questions (for example, 'How many more?' and 'How many fewer?') using information presented in scaled bar charts, pictograms and tables. <br> - Interpret and present discrete and continuous data using appropriate graphical methods, including bar charts and time graphs. <br> - Solve comparison, sum and difference problems using information | - Solve comparison, sum and difference problems using information presented in a line graph. <br> - Complete, read and interpret information in tables, including timetables. <br> - Interpret and construct pie charts and line graphs and use these to solve problems. <br> - Calculate and interpret the mean as an average. |

|  |  | presented in bar charts, pictograms, tables and other graphs. |  |
| :---: | :---: | :---: | :---: |
| To use algebra | - Solve addition and subtraction problems involving missing numbers. | - Solve addition and subtraction, multiplication and division problems that involve missing numbers. | - Use simple formulae. <br> - Generate and describe linear number sequences. <br> - Express missing number problems algebraically. <br> - Find pairs of numbers that satisfy an equation with two unknowns. <br> - Enumerate possibilities of combinations of two variables. |
|  | - Solve addition and subtraction problems involving missing numbers. | - Solve addition and subtraction, multiplication and division problems that involve missing numbers. | - Use simple formulae. <br> - Generate and describe linear number sequences. <br> - Express missing number problems |

|  |  |  | algebraically. |
| :--- | :--- | :--- | :--- |
|  |  | •Find pairs of numbers <br> that satisfy an equation <br> with two unknowns. |  |

| variables. |  |  |  |

## Characteristics of Mathematics Teaching and Learning in Mathematics Curriculum

- An understanding of the important concepts and an ability to make connections within mathematics.
- A broad range of skills in using and applying mathematics.
- Fluent knowledge and recall of number facts and the number system.
- The ability to show initiative in solving problems in a wide range of contexts, including the new or unusual.
- The ability to think independently and to persevere when faced with challenges, showing a confidence of success.
- The ability to embrace the value of learning from mistakes and false starts.
- The ability to reason, generalise and make sense of solutions.
- Fluency in performing written and mental calculations and mathematical techniques.
- A wide range of mathematical vocabulary.
- A commitment to and passion for the subject.

## Support for Pupils (outcomes below the expected milestones)

Number

Properties of shapes and measures

| P4 | P5 | P6 | P7 | Early Years |  |
| :--- | :--- | :--- | :--- | :--- | :--- |

| of sight, hearing or touch, demonstrating the beginning of object permanence. <br> - Match big objects and small objects. <br> - Demonstrate an interest in position and the relationship between objects. | objects in their usual place. <br> - Find big and small objects on request. <br> - Compare the overall size of one object with that of another where there is a marked difference. <br> - Explore the position of objects. | usual place, demonstrating understanding of object permanence. <br> - Compare the overall size of one object with that of another where the difference is not great. <br> - Manipulate 3D shapes. <br> - Show an understanding of words, signs and symbols that describe positions. | 'backwards". <br> - Pick out described shapes from a collection. <br> - Use familiar words in practical situations to compare sizes and quantities. | one dimension such as length or height where the difference is marked, and indicate 'the long one' or 'the tall one'. <br> - Show awareness of time, through some familiarity with names of the days of the week and significant times in the day (such as meal times, bed times). <br> - Respond to mathematical vocabulary (such as 'straight', 'circle', 'larger') to describe the shape and size of solids and flat shapes. <br> - Describe shapes in simple models, pictures and patterns. | related to money. <br> - Order and sequence familiar events. <br> - Measure short periods of time in simple ways. <br> - Describe relative positions (such as behind or next to). <br> - Order 2 or 3 items by length or height. <br> - Order 2 items by weight or capacity. <br> - Use familiar objects and common shapes to create and recreate patterns and build models. <br> - Begin to use mathematical names for 'solid' 3D shapes and 'flat' 2D |
| :---: | :---: | :---: | :---: | :---: | :---: |

## Challenge for Pupils (outcomes above the expected milestones)

Years 7, 8 and 9

| Algebra: expressing relations | Number: calculation and accuracy | Number theory <br> - Know and use: | Algebra: using equations and functions |
| :---: | :---: | :---: | :---: |
| - Read and interpret algebraic notation. | - Use place values, including for decimals, measures, the language of larger and smaller | - prime numbers | - Use formulae by substitution to calculate the value of a variable. |
| - Express known relations algebraically, using accurate notation, including prioritisation of operations. | numbers, and ordering numbers, including the correct use of $=, \neq$, $<,>, \leq, \geq$. | - common factors and common multiples for whole numbers with 2 and 3 digits. | - Begin to model problems algebraically. |
| - Expand products of binomials. | - Use the four operations, including efficient written methods, applied to a range of | - highest common factor and lowest common multiple, understanding these as the | - Solve linear equations in one variable. |
| - Simplify expressions involving sums of products | numbers, both positive and negative. <br> - Understand and use | intersection and union of the prime factors. <br> - other classifications of | - Use linear and quadratic graphs to estimate values of $y$ for given values of $x$ and vice versa and approximate |

and powers.

- Find the nth term in an arithmetic sequence.
- Find the nth term in geometric, quadratic and other sequences.
- Produce graphs of linear and quadratic functions of one variable with appropriate scaling (using equations in $x$ and $y$ and the Cartesian plane).
- Interpret mathematical relationships both algebraically and geometrically.
conventional notation for the priority of operations, including brackets, powers, roots and reciprocals.
- Use mass, length, time, money and other measures.
- Compare, order and convert between fractions and decimals.
- Interpret percentages and percentage changes as a fraction or a decimal, and calculate these using multiplication.
- Interpret and compare numbers in standard form (such as $A \times 10 n$, where $n$ is positive or negative).
- Estimate number, measures and approximate answers, including using these to check other calculation methods.
- Round numbers and measures to an appropriate degree of accuracy, including simple error intervals, using standard interval
number, including product notation
- integer powers and associated roots (square, cube and higher), including the use of surd notation (e.g. V8).
- Distinguish between exact answers and decimal approximations.
solutions of simultaneous equations.
- Use given graphs of a variety of functions, including piece-wise linear, exponential and reciprocal graphs, to approximate solutions to problems.

|  | and inequality notation. <br> - Use a calculator to calculate <br> results accurately and then <br> interpret them appropriately. |  |
| :--- | :--- | :--- | :--- |
