

Eco Council Meeting 9th January 2018

More details given to the children about our visit to Sandhills Recycling Centre in Newburn on 24th January.

The children are very much looking forward to visiting and finding out what happens to the waste in Newcastle and how some things are recycled. We will share what we find out when we get back and it will help us to plan some recycling and reducing waste initiatives in school.

Liam C, Liam W and Ridwan have all decided to leave eco council, so we will be electing new members to replace them.

Next meeting on 16th January- We will be discussing how we can contribute to the RSPB Big Schools Birdwatch, and places to plant our shrubs.
