

## Eco Council 21.2.18

1. We had fun today chitting potatoes ready to grow in the EY allotment. Some of us weren't too sure about touching the shoots though! We will have to wait 2 weeks now before we add compost. Thanks to Grow Your Own Potatoes for the seed potatoes to grow.
2. We found out about the Big Battery Recycling Scheme and looked through the resources. We are going to ask the rest of school in assembly where they think the main buckets should go, and every child will have a small box to take home and fill as they can. Aaliyah, Ellis and Olliver offered to talk to the rest of school in assembly on 23<sup>rd</sup> Feb and this has been arranged with Mrs Hinshaw.
3. We will work with School Council for the Big Clean on Friday 2<sup>nd</sup> March to clear litter around school and in the school grounds. We will record how much litter we collect and see if this reduces when we do more whole school work on recycling.
4. See our photos from the Recycling Centre visit, outside of the toilets in KS2. Ask any of us if you would like to know more.
5. Look out for the logs arriving and new topsoil being delivered from Sandhills for our future projects in the yards and in the Thrive room.
